Critical Intelligence Problems Committee

DCI/ICS 84-3742
9 February 1984

MEMORANDUM FOR: Acting Director of Central Intelligence

VIA: Deputy Director, Intelligence Community Staff

25X1 FROM: [REDACTED]
Vice Chairman

25X1 SUBJECT: CIPC Monthly Report--January 1984 [REDACTED]

25X1 1. The Committee did not convene in January; however, we did provide the members a status and activities report covering the significant projects and activities the Committee and staff is currently addressing. Our next regular meeting is scheduled for 13 February 1984. One of the primary agenda items will be the review and promulgation of the Terms of Reference (TOR) for the CIPC study on the "Proposals and Means for Improving CBW Intelligence Capabilities." [REDACTED]

25X1 2. Since our last monthly report to you, we have added the Department of Energy (DOE) to our Committee membership rolls. Mr. Charles V. Boykin, Deputy Assistant Secretary for Intelligence, will serve as the principal member. [REDACTED]

Narcotics Study:

25X1 3. Final draft copies of the Narcotics Study have been disseminated to the NFIC and CIPC members and other interested parties, as appropriate. The DCI approved the study for NFIC consideration on 3 February 1984. Subsequent to DCI approval it will be printed in hard copy for dissemination and implementation. Additionally, the report will be forwarded to the SSCI in response to their requirement for the DDCI to provide them a report on the Intelligence Community's program and activities in supporting the US narcotics interdiction program. (Note: The narcotics study is presently being revised

in response to the discussion and guidance provided by the NFIC at its meeting of 3 February. The revised report will be forwarded to you within the next few days.) [REDACTED]

International Terrorism:

25X1

4. Subsequent to providing the DCI the 23 December interim report on how the Intelligence Community is handling, and is organized to handle the international terrorism problem, the CIPC Terrorism Working Group immediately started developing a more in depth report on this subject, with specific actionable recommendations, for the DCI's consideration. Although we have not established a specific completion date for the report, the working group is cognizant that the DCI has directed that a fast track effort be undertaken over a 4-6 week period. [REDACTED]

25X1

5. Also during the month the CIPC was given the task to develop a concept for a DCI Terrorism Analyst Net connecting the Intelligence Community's various terrorism intelligence elements. The concept has been developed and was approved by the DCI on 20 January. IOC for the Analyst Net is scheduled for 6 February, and will connect CIA, NSA, Navy, DIA and State. The remaining interested organizations (Army, Air Force, Marines, JSOC, FBI and Secret Service) will be brought on line as technical problems are resolved; however, FOC for the completed net is expected within one to two months. [REDACTED]

Soviet Ballistic Missile Defenses:

25X1

6. The task force established to study this intelligence problem is in the final stages of completing an interim report for the DCI, as requested. We will be forwarding the interim report to you and the DCI within the next few days. [REDACTED]

Soviet Strategic Cruise Missile Study:

25X1

12. The Soviet Strategic Cruise Missile Study is presently in the Print Shop being produced in final form. It will be disseminated in the immediate future [Redacted]

SECRET

13. It is also noteworthy that we received from DUSDRE(C3I), Don Latham, their comments on the Cruise Missile Study. In essence, their comments are very laudatory and they think it is "an excellent, positive example of what can be accomplished by an Intelligence Community working group--given proper focus, leadership, and membership." To say the least, we are very pleased with this reaction.
